

Anti-Bribery & Corruption Policy Statement

2018

Swift Construction Group operates a zero tolerance policy in respect of any form of bribery or corruption. The penalties for bribery and corruption are severe. They include up to 10 years imprisonment for individuals and an unlimited fine for companies as well as adverse publicity and damage to the company's reputation.

This statement of Policy is deliberately succinct. Combating bribery is fundamentally about common sense and creating a culture of ethical behaviour, not burdensome procedures.

The Bribery Act 2010 is not about curtailing legitimate and proportionate entertainment - which is an important device in establishing and maintaining good relationships - it is about preventing bribery and corruption.

Corruption is about the abuse of entrusted power for private gain. This includes bribery, which is the offering, promising or giving of a bribe (active bribery) or accepting a bribe (passive bribery).

There is also the corporate offence of attempting or soliciting to bribe a foreign public official, which is unlikely to apply to Swift Construction Group.

There is also the corporate offence of failing to prevent bribery being carried out on its behalf.

It is the Swift Scaffolding Ltd and the Director's belief that by introducing and implementing a zero tolerance policy in respect of bribery and corruption that future dealings and relationships with our Clients will benefit from managing our affairs in an open and transparent manner.

Swift Construction Group approach to bribery and corruption has been adopted by all group companies, including for the avoidance of any doubt, all subsidiaries, joint ventures, partnering arrangements and future business dealings and transactions and sets out the standards expected of all its employees.

As it is expected that all those who work for and with the Group adhere to the Group's zero tolerance approach to bribery and corruption, all references to Swift Group of Companies in this policy applies equally to individuals and companies who are business partners who work with and for the Group.
